### WORK EXPERIENCE:

#### JK Global IT Solutions |Tiruvannamalai |01/07/2024– At Present

- Developed and launched 7+ web projects, with 4 live websites and others in progress.
- Worked on both front-end and back-end development, utilizing modern technologies.
- Built robust admin panels using Firebase as the backend database, integrating authentication via API keys for secure admin login functionality.
- Implemented EmailJS for form handling, leveraging service and template IDs for efficient email communication and automation.
- Demonstrated expertise in Bootstrap for developing responsive, cross-device user interfaces, ensuring optimal user experience on mobile, tablet, desktop, and laptop modes.
- Delivered efficient, scalable, and maintainable code that meets business requirements and user expectations.

### PROJECTS:

#### E-Commerce (MERN-Stack) Live:[Link](#)

HTML | CSS | JavaScript | React.js | Express.js | MongoDB

- I deployed my project using Firebase.
- Managing product listings and updates.
- Implementing digital marketing strategies.
- Handling customer inquiries and ensuring satisfaction.
- Admin Panel is implemented for this E-Commerce Link
- Add to cart option achieved by using CRUD operations

### PORTFOLIO:

HTML | CSS | JavaScript | Bootstrap 5 Live:[Link](#)

- Developed a personal portfolio website showcasing my projects and skills.
- Deployed the website using GitHub
- Implemented an attractive animated UI for enhanced user experience.
- Utilized responsive design principles to ensure compatibility across devices.
